“ *I have fond memories of Dr. Schultze's Introduction to Education course. He was a wonderful professor and educator. He touched the lives of many and helped launch many teaching careers. His emphasis on teaching students and not a subject is truly what teaching (and life) is to be about. My prayers are with the family at this difficult time.*

Sincerely,

Kim

“ *I enjoyed “Dean’s” sense of humor. He usually looked like he had something up his sleeve. He was such a pleasant man, good husband and father.*

“ Favorite memory of Dr. Schultze was him jumping up on his desk and welcoming us to “higher education”. Learned much from him during my years at Wm. Penn. Condolences to all..

Don had a wonderful sense of humor. Once while the PE class of archery was practicing, he grabbed an arrow and staggered across the gym floor with it stuck under his arm. Tamra Knox Class of 1993

Ted and I were just about ready to erase our names from a schedule to see principals from Walcott and Blue Grass Iowa when we were applying for teaching jobs in 1963. Thanks to Dr. Schultz who stopped us, ended in a 35 year teaching career for both of us. He also took me to school many AM when I was walking to Wm. Penn from South Market St. where I lived. He was a great teacher who helped students. Sincere sympathy to his family.

I'll never forget my first day in class. He walked in and saw the hat in my head and motioned to take it off. I wonder what I was getting into. At the end of the semester he asked if I ever planned on getting a haircut. I got it cut that very same day. It was because of his expectations, everything that he taught me, and the great respect that I ended up having for him that I'm teaching students today.

I remember him talking fondly about his wife. He said the reason they got along so well and that their marriage was so strong was that he let her decide about all the little things and he was in charge of worrying about the "big" things. Then he would follow that up by saying that his wife decided where they would live, when they would buy a new car, where they would go on vacation.....those were the "little" things. He was in charge of world peace, world hunger and saving the rain forest.
